"HEALTHY PATIENT - HEALTHY FAMILY"

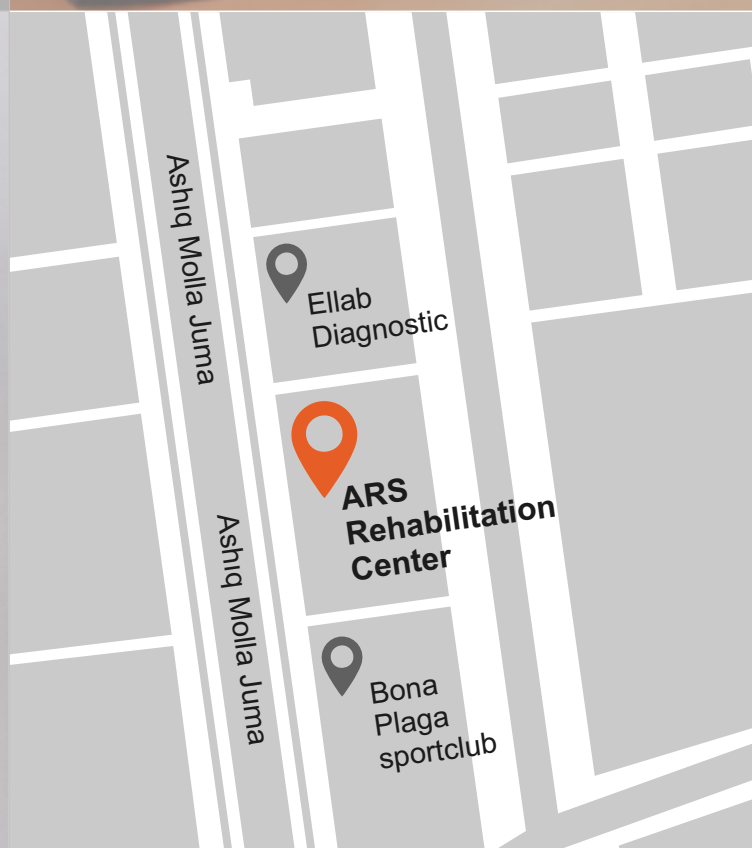

"ARS Rehabilitation Center" LLC is a medical institution specializing in rehabilitation and therapy for nervous system diseases, traumatology and orthopedics, and many other areas.

During our activities, we aimed not only to provide medical services, but also to study and analyze the impact of the complications of the disease on the patient and his family members, their current lifestyle, as well as to provide them with psychological support and minimize the negative impact of the disease on these individuals.

For this purpose, our institution employs a team of highly qualified specialists with many years of experience, specializing in various fields related to our area of activity. This professional team organizes patients' treatment through special and comprehensive programs and implements support programs for patients affected by illness, as well as for their families and caregivers who provide them with care and assistance. We would particularly like to note that the "ARS Rehabilitation Center" is equipped with modern equipment that reflects the latest achievements in science and technological advancement in the field of rehabilitation. These technologies play an essential and irreplaceable role in the measures aimed at improving patients' health and recovery.
